

## ELoshield AGV MODULE

The ELOshield AGV Module helps to prevent accidents between automatic guided vehicles and other material handling equipment (forklift trucks, etc.) fitted with the ELOshield System. The AGV Module is a UWB hardware device that acts as a standalone ELOshield antenna. The detection range is up to 15 metres.

## TECHNICAL DATA

Information	Value [unit]
Dimensions	84 x 50 x 20,1 mm
Weight	~ 60 g
Protection class	IP 54
Acoustic signal volume	90 dB (Optional)
Supply voltage	5 V
Detection Area	Up to 15 m (Line of Sight)
Temperature range	-10 to +60° C
